Ms. Penny Lassiter  
Director  
Sector Policies and Programs Division  
US EPA  
Research Triangle Park, NC 27711

**Re: Your letter dated September 13, 2021, to Steve Brown regarding NESHAP information request for EtO Contract Sterilization facilities**

Dear Ms. Lassiter,

We received your notification letter concerning NESHAP reporting requirements. Please be advised that Andersen Products, Inc. is no longer performing contract sterilization. Our ethylene oxide sterilization facility at Health Science Park ceased operations on December 31, 2020. We are no longer registered with FDA as a contract sterilization facility.

Per the instructions in your letter, I sent an e-mail to Charlene Spells on September 20<sup>th</sup> to discuss how to respond to your request given the closure of our sterilization operation (copy of this e-mail is enclosed). I did not receive a response to my request for a short call.

Please contact me if you need any additional information regarding the status of our former contract sterilization operations at Health Science Park.

Sincerely,

A.E. (Ted) May  
President & CEO
